

# Digital Watch List - Casio and G-Shock Watch List Considerations

This is looking for fit a 5.75" wrist size.

Watch	Price in USD	Model and Links	Night Mode	Time Sync	Similar	Dial W	Lug-to-Lug	Dial H	Thickness	Water Resistance	Weight
Video with Callipers		DW-500C-1				36.8mm	41.9mm		11.4		
	\$24.13	F108WH-1				42.6mm 42.5 (measured)	44.5mm (measured)	35.38mm (square shell) (measured) 40.65mm (measured)	10.26mm 10.68mm (measured)	30m	3.35 Ounces
	\$24.95	F108WHC-1A	LED			See above	See above	See above	See above	100m ? (per Amazon but this does not look right)	
 	\$120	GMD-S5600-7	Light LED backlight (Super Illuminator) Afterglow  White version looks nicer than the black which has the brown surround.			40.5	45.7		11.9	20 bar	

**Comments**

👍 Looks to fit well and added to wish list.

**Comments**

❌ Unless there are feature differences, I like the out of release F108WH-1 black border better.

👍 Looks like it will fit well

	\$69  GMD-DWB5 600SF-7  GSHOCK	DDW5600E-1V  EL Backlight, afterglow	none  <div> <b>Comments</b>  <div>            Loses against the GWM5610 which has following advantages,           <ul style="list-style-type: none"> <li>• Thinner</li> <li>• Time Sync</li> <li>• Solar</li> </ul> </div> </div>		42.8mm		48.9mm	13.4mm	200m	
	\$140  vs DDW5600E-1V  GWM5610U  GSHOCK	GWM5610-1  Full auto EL light, afterglow, time sync, solar  <b>Autolight</b> ~Sep 2021, a <a href="#">silent upgrade</a> was done with the <b>GW M5610U</b> , with the following differences I care about, <ul style="list-style-type: none"> <li>• Visually top rights says "Light" instead of "EL Back Light"</li> <li>• <b>Light</b> - The green electro-luminescent "backlight" is replaced with a white LED display from the left (hotspot but less power and fades slower) - not sure I like this better... according to the comments by article author looks the same </li> <li>• <b>Light</b> - New light has an option to remain for 3 sec versus the older 2 sec. </li> <li>• <b>World-Time</b> - Miami, Toronto, and Santiago were sacrificed, while Kathmandu, Buenos Aires, and Fernando de Noronha were added</li> <li>• Permanent Display of "Home Time" when in "World Time" </li> <li>• <b>Stopwatch</b> - No longer shows 1/100 of a second for full duration of stopwatch and only available at the first hour.</li> <li>• <b>Stopwatch</b> - However, shows current time even when timing. </li> <li>• Date format MM/DD has option for DD/MM</li> </ul>	<div> <b>Comments</b>   Fit well on my 5.75" but ideal would be slightly smaller.             Turned out a nice fits for my brother-in-law who has what looks to be 6.5" wrists.         </div>	Radio 	43.2mm		46.7mm	12.7mm	200m	
	\$550  GMWB5000 D-1  GSHOCK  Similarly there's a GW5000U	Super Illuminator LED Light, afterglow		Radio & Bluetooth	 43.2mm		49.3mm	13mm	200m	

Not so much GSHOCK, but interesting articles on the CASIO FW91's - <https://www.benswatchclub.com/>
