

Dash Cam

Minimal Requirements,

Cam	Price	Mobile Replay	Night Vision	Wide Angle °	Rear	Powered by	Parking M
F800 PRO 2	\$349.99	Yes					
BlackVu							
70mai		Yes		140°			
Garmin Dash Cam 55		Yes		120°			
Rexing V1				170°			
Garmin Speak Plus		Yes					
Waylens Secure360 4G 		Yes		360°			Very long pa Flare proble Poor quality.

Powering

OBD (all cars from late 90s on) to mini/micro USB power, but keep in mind wire hanging out - make sure plastic cover can go back on - <https://www.blackboxmycar.com/pages/installation-obd>

Recommends Hard Wire Kit with Power Magic Pro (monitors and cuts power if battery is low) - <https://www.linelink.com.au/blogs/linelink-online-blog/power-options-for-your-dash-cam>

Parking Modes

Different parking modes - I'm partial to buffered parking mode with a sensor - <https://dashboardcamerareviews.com/best-parking-mode-dash-cams/>

Reviews
